Turning Data Into Meaningful Stories And Solutions

PROFILE

Aspiring student at IT-Högskolan pursuing a degree in Systems Development in AI & Machine Learning. Seeking opportunities to transition into a career in data science where I can apply my skills and knowledge to drive meaningful insights and make data-driven decisions.

Continuously working on developing my programming skills, specifically with Python and expanding my knowledge in machine learning techniques to better analyze and understand complex data sets. My previous experience as a land surveying consultant has provided me with a strong problem-solving mindset with proven team and client collaboration skills.

I am excited for the opportunity to apply my unique background and skills to real-world problems and make an impact in the field of data science.

EXPERIENCE

IT-Högskolan - IT Student

2022

Learning a combination of statistical and computational skills such as programming, data cleaning, exploratory data analysis, data visualization, statistics and machine learning. Combined with LIA (learning at work). Follow my journey on [GitHub](#)

LE34 | Veidekke - Land Surveyor

2018 - 2022

Provided surveying services for building and infrastructure projects. Performed site surveys, created detailed topographic maps with UAV, volume calculations, 3d-modelling. Quality control and quality assurance to ensure the construction project met all requirements. Detailed resume [here](#)

OneMed - Warehouse Logistics

2012 - 2018

Overseeing the day-to-day operations of a warehouse housing medical supplies. This included receiving, storing, and shipping goods. Ensuring that the warehouse is safe and efficient, and that inventory is accurate and properly maintained.

EDUCATION

IT-Högskolan

2022

Systems developer - AI and Machinelearning

Teknikhögskolan

2018-2020

Land Surveyor
Construction - BIM - Machine Control - CAD

Umeå Universitet

2009-2012

Standalone courses in Economics, Statistics and Service Management

SKILLS

Python Pandas Machinelearning AI
Cloud SQL Git UAV AutoCad
